## TRANSATLANTIC BALLOON READY FOR LONG TRIP

[Associated Press by Fed. Wireless.]  
HAMMONDSPOOT, New York, July 25.—Lieut. John Cyril Porte of the Royal Navy, who is to pilot the Wana-makor transatlantic aeroplane America from St. John's Newfoundland to Queenstown, made a successful flight with the machine last night. The America flew forty-four miles, rose easily, and worked perfectly without the aid of the third auxiliary motor.

Delay in starting the flight has been made necessary while the wings of the machine have been strengthened to enable the aeroplane to bear the initial weight of its passengers and cargo in rising from the water. It is believed now that this has been accomplished.

The route of the America lies between Newfoundland and the Azores, a distance of 1140 miles, and where the first stop will be made. The second lap of the flight will cover a distance of 660 miles between Azores and Oporto, Spain, and from there north to Queenstown, a distance of 540 miles.

## OIL LANDS TO BE WORKED ON SHARES BY UNCLE SAM

[Associated Press by Fed. Wireless.]  
WASHINGTON, July 25.—An agreement was reached yesterday by the house public lands committee, the department of the interior and the navy department on a bill to provide for the temporary development of oil and gas, particularly in California.

The measure provides for the development of oil on land whose title is disputed, or divided between the claimants and the government, pending a settlement of the dispute.

## ALL EDITORS SHOULD BE CHRISTIANS, SAYS PRISE

KANSAS CITY, Mo.—That the greatest need of every community is for capable leaders with Christian ideals, who will apply them to the solution of municipal, social, economic and political questions, was asserted by S. Eber Prise, president of Ottawa University, Ottawa, Kan., in an address before the twenty-first convention of the Baptist Young People's Union of America, held jointly with the Baptist Young People's Union of the South, here recently.

He pointed out that one of the first tasks before the church people of the country is to educate the producers of literature, the newspaper men and the magazine men.

"Our task is to seek out these men, who are leaders and who are to be leaders, in this important activity and train them in the proper way," he said. "If those who produce our literature and edit our magazines and daily newspapers have been schooled in the teaching of Jesus, it will be a determining factor in their lives and the thousands they influence."

## OSTEOPATHY AND SURGERY MAKE BAD CHILDREN GOOD

[By Latest Mail]  
NEW YORK.—Surgery plus osteopathy can wipe out mental and moral deficiencies, according to Dr. Elizabeth M. Muncie of Brooklyn, noted surgeon and leader in the World's Purty Congress.

In proof of her statement she today pointed to the cases of three girls who have been under treatment in the last few weeks, and who now are transformed from "bad" to "good" girls.

The foremost case is that of Dorothy Schele. From childhood she showed a violent temper, became unmanageable, and was a city charge.

A little more than a week ago, by the use of surgery and osteopathy, Dorothy underwent four operations. Today she is well. Her nervous ailment has disappeared, and all of the wayward tendencies are gone.

In this case no immorality was noted, but in the other two patients

there was a marked strain of moral deficiency.  
Nora White, like Dorothy, 17 years old, was without self-control in the face of temptation and it seemed impossible for her to tell the truth. Similar operations upon her have transformed her from a noisy, ill-mannered, immoral girl to a sweet-natured, quiet, upright young woman. Dr. Muncie today declared. The third patient, Grace Kale, 17 years old, showed marked symptoms of idiosyncrasy plus immorality and an operation on the neck and other vital organs has cut the veil from her mind.

"There is really nothing new in the method," declared the doctor. "It has been practiced 20 years, but the public is only now awakening to its possibilities. It is entirely possible now to blot out in both men and women the taint of mental and moral deficiency by means of surgery and osteopathy."

## ALLEGED EMBEZZLER TO BE EXTRADITED

[Associated Press by Fed. Wireless.]  
SACRAMENTO, July 25.—Governor Hiram Johnson yesterday honored requisition papers for William Armstrong, who is wanted at Honolulu on a charge of embezzlement. Armstrong has expressed his willingness to return to face the charges, which have been preferred by the Honolulu Lodge of Moose.

## A MESSAGE TO THIN, WEAK, SCRAWNY FOLKS

An Easy Way to Gain 10 to 30 lbs. of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative function of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge-eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point.

Caution:—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder. For sale by Benson, Smith & Co., Chambers Drug Co., and Hollister Drug Co.—advertisement.

**Choosing the Lesser Evil.**  
The little boy was evidently a firm believer in the old adage, "Of two evils choose the least." Turning a corner at full speed he collided with the minister.

"Where are you running to, my little man?" asked the minister, when he had regained his breath.

"Home!" panted the boy. "Ma's going to spank me."

"What!" gasped the astonished minister. "Are you eager to have your mother spank you that you run home so fast?"

"No," shouted the boy over his shoulder as he resumed his homeward flight, "but if I don't get there before pa he'll do it!"

A man seldom pays a woman compliments after marriage because it keeps him working overtime paying her bills.

Another report received here, and based on good authority, says that General Villa now has agents at Chicago and St. Louis buying quantities of arms.

## CLEANSER YOUR HAIR MAKES IT BEAUTIFUL

It becomes thick, wavy, lustrous and all dandruff disappears—Hair stops coming out.

Surely try a "Dandierine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Dandierine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Dandierine dissolves every particle of Dandruff; invigorates the scalp, stopping itching and falling hair.

Dandierine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Dandierine from any drug store or toilet counter and try it as directed.—advertisement.

## SPECIALIZATION HAS PROVED THE GREAT SUCCESS OF THE FORD CARS

Concentration and specialization have been the watchword of Ford success and progress ever since the incorporation of the Ford company. It has specialized in men, in mechanism, in material.

It specialized on one car. Since 1908 but one model, the famous Model T has been the company's product. Several different types of bodies have been put on the one type of chassis, but the chassis has remained the same.

The first Model T was a good car. All the Model T's built have been good cars. Their reputation for efficient and economical service is worldwide. They are the standard by which other cars are judged.

As more and more of the Model T's have been sold, it has been possible to sell them for less and less. It is the old principle of "battering down cost per unit by manufacturing more units."

That the company is building more than 1100 completed automobiles a day; that it has built and sold to date more than a half a million Fords; that Ford branch houses or agencies are located in every city of importance in the civilized world, should be taken as evidence of the rightness of Ford policies and Ford cars.

The Schuman Carriage Company are doing their share toward putting the immense output from the Ford factories on the market, and though the territory here is extremely limited still the Schuman company have had no difficulty in handling a carload of Fords per week on an average for the entire season.

The Schuman Carriage Company report the following sales this week, and they still have a waiting list for the shipment to arrive next week:

First National Bank, Wailuku, Maui, Ford touring car.  
Helen Cummings, Ford roadster.  
M. Kanashiro, Ford touring car.  
John A. Medeiros, Hana, Maui, Ford touring car.
